POP UP INNER TENT (MP9547) USER GUIDE

WARNING – GENERAL SAFETY

- Not to be used in strong winds and extreme weather conditions.

CARE OF YOUR POP UP INNER TENT

- Allow material to dry completely before storing in the storage bag provided.
- Remove dirt with a soft sponge and warm water. DO NOT use detergent.
- DO NOT expose to sparks, flames or other sources of ignition.
- NOTE – during certain conditions moisture may be visible on the inside of the material. This is the natural build up of condensation and should not be mistaken for leaking.

CONTENTS

Inner Tent x 1

Steel pegs x 7

Carry bag x 1

BEFORE USE

Choose a clear site that is flat and if possible sheltered from the wind. Remove any sharp objects from the pitching area which could be dangerous or potentially damage the fabric.

POP UP INNER TENT (MP9547) USER GUIDE

PITCHING INSTRUCTIONS

Remove the inner tent from the storage bag and lay flat the ground.

Stand the inner tent upright with the groundsheet facing the floor. Pull apart both sides.

Once you have selected a suitable location to pitch your Inner Tent; peg down each corner. Ensure the tent is taut when pegging so it forms the correct shape.

POP UP INNER TENT (MP9547) USER GUIDE

The front door and mesh panel can be zipped closed or rolled and held by toggles.

PACKING AWAY YOUR POP UP INNER TENT

Push together both sides. Lie the inner tent flat on the ground with the front door panel at the top. Ensure there is no air trapped inside.

Holding the tent upright from one end; fold in half so the two ends meet.

POP UP INNER TENT (MP9547) USER GUIDE

Twist the bottom 2 corners and fold them into the front door panel on the floor.

The inner tent will naturally fold into a circular shape. Compact the tent into a tight shape ensuring it is small enough to re-pack into the storage bag.

A QR code to a video showing how to pack away the inner tent can be found below:
