Fitting Instructions
- when un-hitched

Fig 1

With the caravan or trailer un-hitched; lift the handle and insert the plastic ball (spare ball available – SH54126B).

Fig 2

Push the handle down to close the coupling and secure the plastic ball.

Fig 3

Insert the key and rotate clockwise. This will unlock the hitchlock and will separate it into two parts.

Fig 4

Offer the pins on the lock cheek to the first set of holes on the coupling. Insert the pins on the lock cheek into the slotted holes on the coupling. Ensure that the recesses in the cheeks cover the coupling fixing bolts. The flange of the coupling sits in the slots in the cheeks.

Fig 5

Repeat the process with the second lock cheek on the opposite side. Ensure the lock holder is inserted into the lock pin under the coupling.

Fig 6

Insert the key and twist anti-clockwise until it stops. Locking is complete when the key removes easily from the lock. Do not force the lock.

Fitting instructions
– when hitched to a towing vehicle

Lift the hitch handle and secure onto the vehicle's towball. Ensure the handle is closed and repeat steps 3-6.

Warranty

Please see warranty card for details. Full warranty terms can be viewed on our website www.stronghold-security.com

Replacement Keys

The design of Stronghold keys means that genuine replacements are only available by special order through the place of purchase, for which you will require your key number. Please note, the use of unapproved copy keys will void your warranty.
